ABOUT THIS GAME

The Princess was kidnapped by the Monster King. And the hero sent to save her... won't be able to do much. Gaining a once in a lifetime opportunity, the Princess has killed the Monster King and stole his weapons. Now armed, she must battle her way down the castle's floors in order to escape the henchmen who are not going to sit idly by as their ruler's killer leaves. React fast and outsmart your enemies as the Princess in order to make your own happy ending.

- Twisting the typical hero's story, you play as the kidnapped Princess to escape your fate as damsel in distress.
- Choose how hard you want your run of the castle to be with difficulty scaling that does not just weaken or strengthen your foes, but also alters your own abilities.
- You must kill the monsters standing in your way fast, or else reinforcements will appear. Against the boss, the consequences of not fighting fast enough can range from more foes to the speed of their attacks increasing.

FEATURES

- Six different castle floors each with their own unique set up to aid in the escape.
- Four different types of enemies: Range, Melee, Shield, and Boss.
- Every second on the clock counts for your survival.
- Combat that you can enhance by utilizing the environment to gain the higher ground.

The Avocado King

Recommended
0.7 hrs on record

Simple controls and easy to understand gameplay. The ranged enemies were way too difficult though.

Also, no avocados. Needs more avocados.

Skull Reaper

Recommended
0.7 hrs on record

While the foes may be tough to kill, the game is a nice balance of quick reaction and quick gameplay.
